#### DEPARTMENT OF BIOCHEMISTRY

| Test Name                                     | Result | Unit  | Bio. Ref. Interval | Method         |
|-----------------------------------------------|--------|-------|--------------------|----------------|
| PROTEIN - SPOT URINE , URINE                  | 625    | mg/dL | < 15               | Turbidimetric  |
| CREATININE - URINE , URINE                    | 115    | mg/dL | 20-400             | Jaffe -Kinetic |
| URINE PROTEIN / CREATININE RATIO SPOT , URINE | 5.43   |       | <0.2               | Calculated     |

#### Comment:

In the presence of stable renal function, a protein/creatinine ratio of more than 3.5 (gm/day) is suggestive of "nephrotic-range" proteinuria, and a ratio of less than 0.2 is within normal limits.

\* (CH) Critical High

## TERMS AND CONDITIONS GOVERNING THIS REPORT

1. Reported results are for information and interpretation of the referring doctor or such other medical professionals, who understand reporting units, reference ranges and limitation of technologies. Laboratories not be responsible for any interpretation whatsoever
2. This is computer generated medical diagnostics report that has been validated by an Authorized Medical Practitioner/Doctor. The report does not need physical signature.
3. Partial reproduction of this report is not valid and should not be resorted to draw any conclusion.
4. In the case you are not the intended recipient of this report. Please immediately return the same to the concerned issuing desk. Any disclosure, copy or distribution of any contents of this report, is unlawful and is strictly prohibited.
5. Results delays may occur due to unforeseen circumstances such as non-availability of kits, equipment breakdown, natural calamities, IT downtime, logistic delays or any other unavoidable event. For certain tests based on analyte stability, criticality of results and in the interest of patient for having appropriate medical diagnosis, the same test may be outsourced to other accredited laboratory.
6. It is presumed that the tests performed are, on the specimen / sample being to the patient named or identified and the verifications of particulars have been confirmed by the patient or his / her representative at the point of generation of said specimen
7. The reported results are restricted to the given specimen only. Results may vary from lab to lab and from time to time for the same parameter for the same patient (within subject biological variation).
8. The patient details along with their results in certain cases like notifiable diseases and as per local regulatory requirements will be communicated to the assigned regulatory bodies
9. The patient samples can be used as part of internal quality control, test verification, data analysis purposes within the testing scope of the laboratory.
10. This report is not valid for medico legal purposes. It is performed to facilitate medical diagnosis only
