Ref. Doctor	DR.MADHURI A N S NEUROLOGIST	Date	20-Sep-2026

NERVE CONDUCTION STUDY REPORT

TEST DONE;

MNCV : Right CPN, Right PTN, Left CPN , Left PTN,

SNCV : Right SURAL, Left SURAL,

F WAVE : Right CPN, Right PTN, Left CPN , Left PTN,

FINDINGS:

- ✚ The distal latencies are prolonged in right tibial nerve.
- ✚ CMAP amplitude and Motor conduction velocities are reduced in right tibial nerve.
- ✚ No CMAP obtained in both peroneal and left tibial nerves.
- ✚ F-wave latencies are not obtained both peroneal and left tibial nerves.
- ✚ The SNAPs are within normal limits in both sural nerves.

IMPRESSION:

- The finding are suggestive of motor polyradiculo neuropathy.
(Predominantly- Axonal). To correlate clinically.
