

Ceasefire, the name that pioneered fire safety in India, is today a fast emerging global brand that protects millions of people across the world every single day. Saving lives keeps us going.

For decades now we've developed **revolutionary** fire safety technologies in **India**, through our **extinguishers** and fire fighting systems that are so **unique** and built at the very **forefront** of **new-age technology**, that many are **firsts** in the **world**.

From Hospitals to Airports, To Schools and Malls, To Indian Army, Navy & Airforce, To Indian Railways, Ordnance Factory and DRDO labs, Ceasefire is safeguarding the assets of the nation everywhere like an omnipresent brand.

And of course millions of Indians who use these facilities.

Our Size and Scale

A team of over **2000 professionals** collectively work from over **100 Ceasefire** branches in the country to bring in **3000 new customers** each month.

Today Ceasefire customers are a family of over **500,000** that include the best names from across industry verticals.

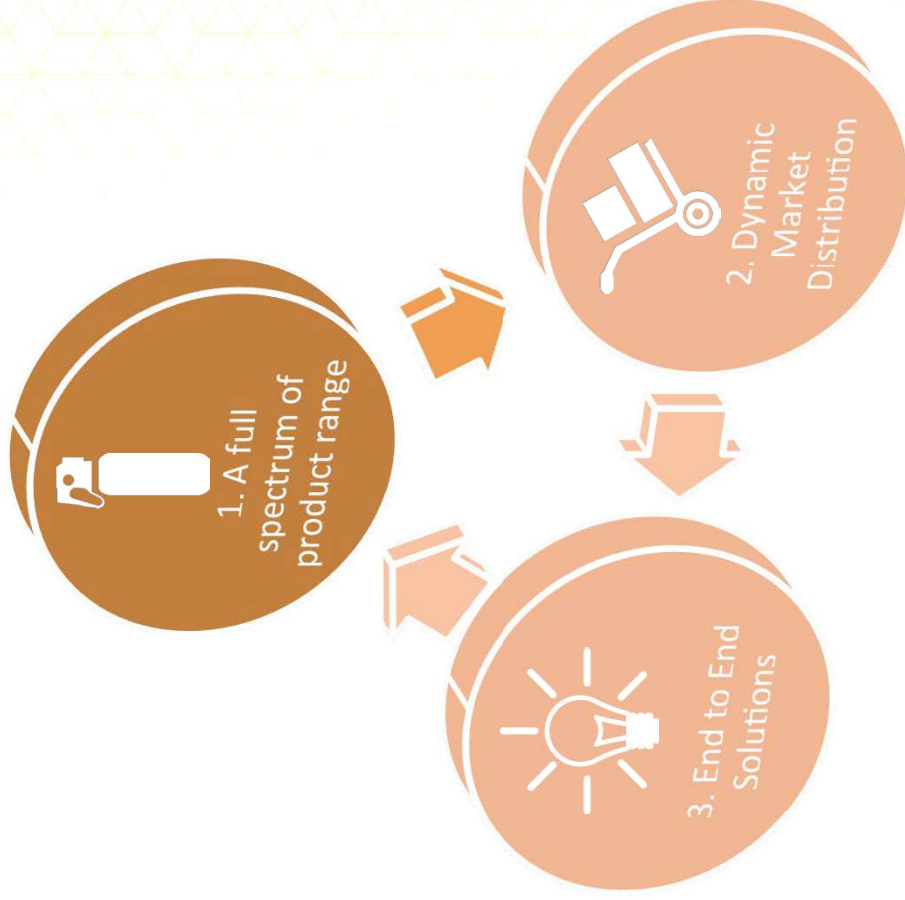

**Today a Ceasefire fire safety product is
sold every 61 seconds.**

**And is used in a real life fire
emergency saving lives &
property, every 5 minutes.**

What sets us apart?

Ceasefire is uniquely positioned to offer its customers a single window service offering, having evolved fully on the **three aspects** of –

- A **360 degree range** of fire safety products
- **End-to-end** solutions , starting from Design to Manufacturing to Commissioning and Maintenance
- A **dynamic distribution** model that ensures Ceasefire products are available where and how the customers need them.

**A full spectrum
of fire safety
products**

first of their kind in the world.

The Manufacturing Edge

Ceasefire's products aren't just assembled; they are **engineered to perfection** and tested ruthlessly.

- A world class **deep draw** station for container manufacturing
- In-house **valve manufacturing** unit
- State-of-the-art **MIG CO2** welding station
- Best in class **paint** shop
- A fully equipped testing lab
- A total production capacity of **4.8 lakh products** per annum
- ISO 9001 certified facility
- Complies with OHSAS
- Has **PESO** approval for pressure filling
- Production that complies with **EN3, EN1866, MED, PED** and **FPC** requirements.
- Tie-ups with the world's leading **OEMs** to **customise** components to our exact specifications ensure nothing but the best products.

**The Promise that forms the
foundation of Ceasefire:**

**Our Products will Deliver at
The Time of Need, Every
Single Time.**

This Promise of Reliability is endorsed by the World's best Quality Agencies.

Meeting, and in many cases surpassing,
the most brutal test standards laid out
in the world – IS15683, IS16018, EN3,7
to 8 and EN1866.

What makes these Certifications a true endorsement of Quality?

- The European standards certifications (EN3, EN1866, PED) are considered **best in the world** because their scope of audit and tests that are all inclusive in nature.
- The certification **doesn't just depend upon the finished product**; the certification audit begins with how the raw materials are procured, suppliers audit, inward quality audit, production quality control and outward quality audit.
- The scope of the audit does not only end at the production facility but also takes into account checks of products installed at the customers' premises and the audit of the **entire after sales services system**.

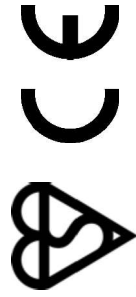

Never before in the Indian market

At Ceasefire we have always **pushed the quality envelope further**. In an unprecedented move the company makes fire safety products available in the Indian market which are certified to not one, but **multiple leading quality standards** and are certified by the best agencies from around the world.

Each specializing with their **unique set of parameters** on performance, safety and application of our products.

What do these Certifications mean for you?

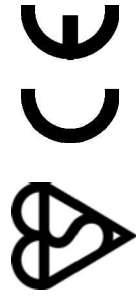

More Firefighting Power: For the two products of the same size with the same agent, the one with EN ratings has greater fire fighting potential as it has passed a battery of stringent tests and higher benchmark standards for approval.

Superior Quality: An EN certification guarantees that the product you have is absolutely top-notch; ready to protect at all times. Internal routine audits and external inspections assure that our quality systems are consistent with international industry standards at all times.

Globally Recognised: We have an in-depth understanding of the specific requirements of international certifying agencies and have worked our way to have certified products that are accepted by MNCs and other companies worldwide.

Transparent Online Verification: All products certified by LPCB are up on the website redbooklive.com for anyone to check and verify. Thus ensuring complete transparency to the users.

One Company; 360 degree integrated skill sets.
